

Student Wellbeing Survey

EduKit Academy

Surveys collected between 20/01/2023 and 20/01/2023

There were a total of 477 responses

This report is provided by EduKit Solutions Ltd and shows a summary of the results of a wellbeing survey.

The survey was anonymous and only asked which year the student was in.

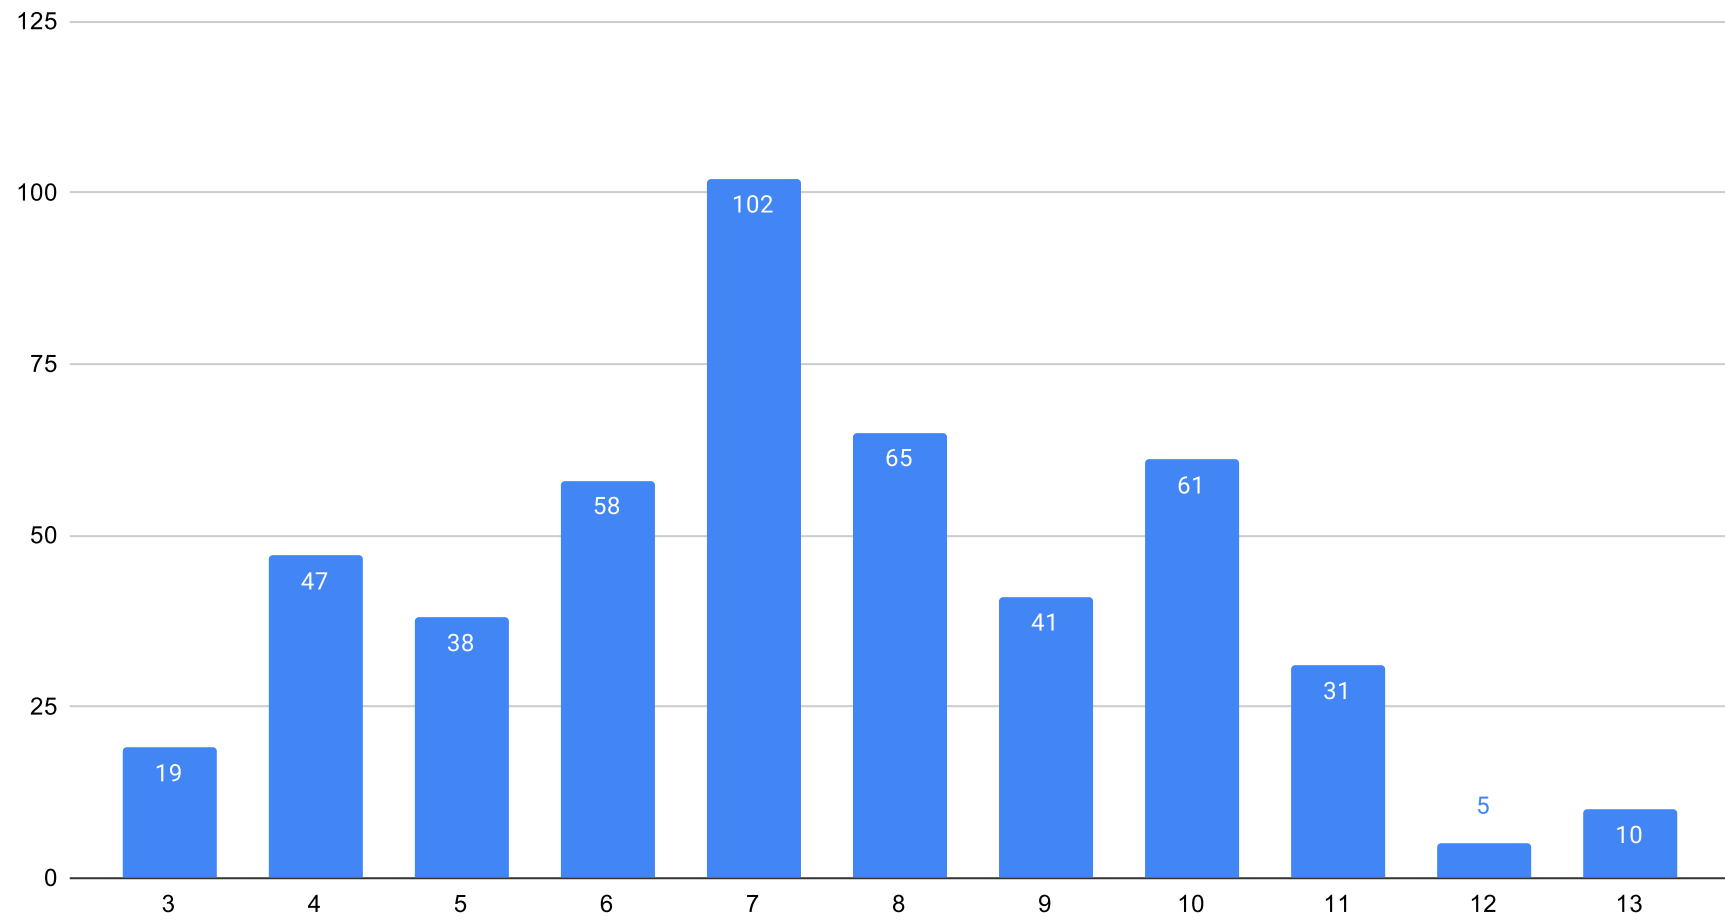

The first wellbeing question where students choose a value from 0 - 10 to represent their life (where 0 is the worst and 10 is the best) has been summarised and averaged by year group.

The subsequent responses are all in the form of Strongly Disagree to Strongly Agree for a statement. These responses have been displayed using percentage bar charts. Please note some statements are "negative" and others are "positive"; for example "My friends are mean to me" is a negative statement, and ideally there will be many "disagree" responses, whereas "I like where I live" ideally has many "agree" responses.

Along with this report you will be provided a CSV file with the responses allowing for further analysis by your own staff.

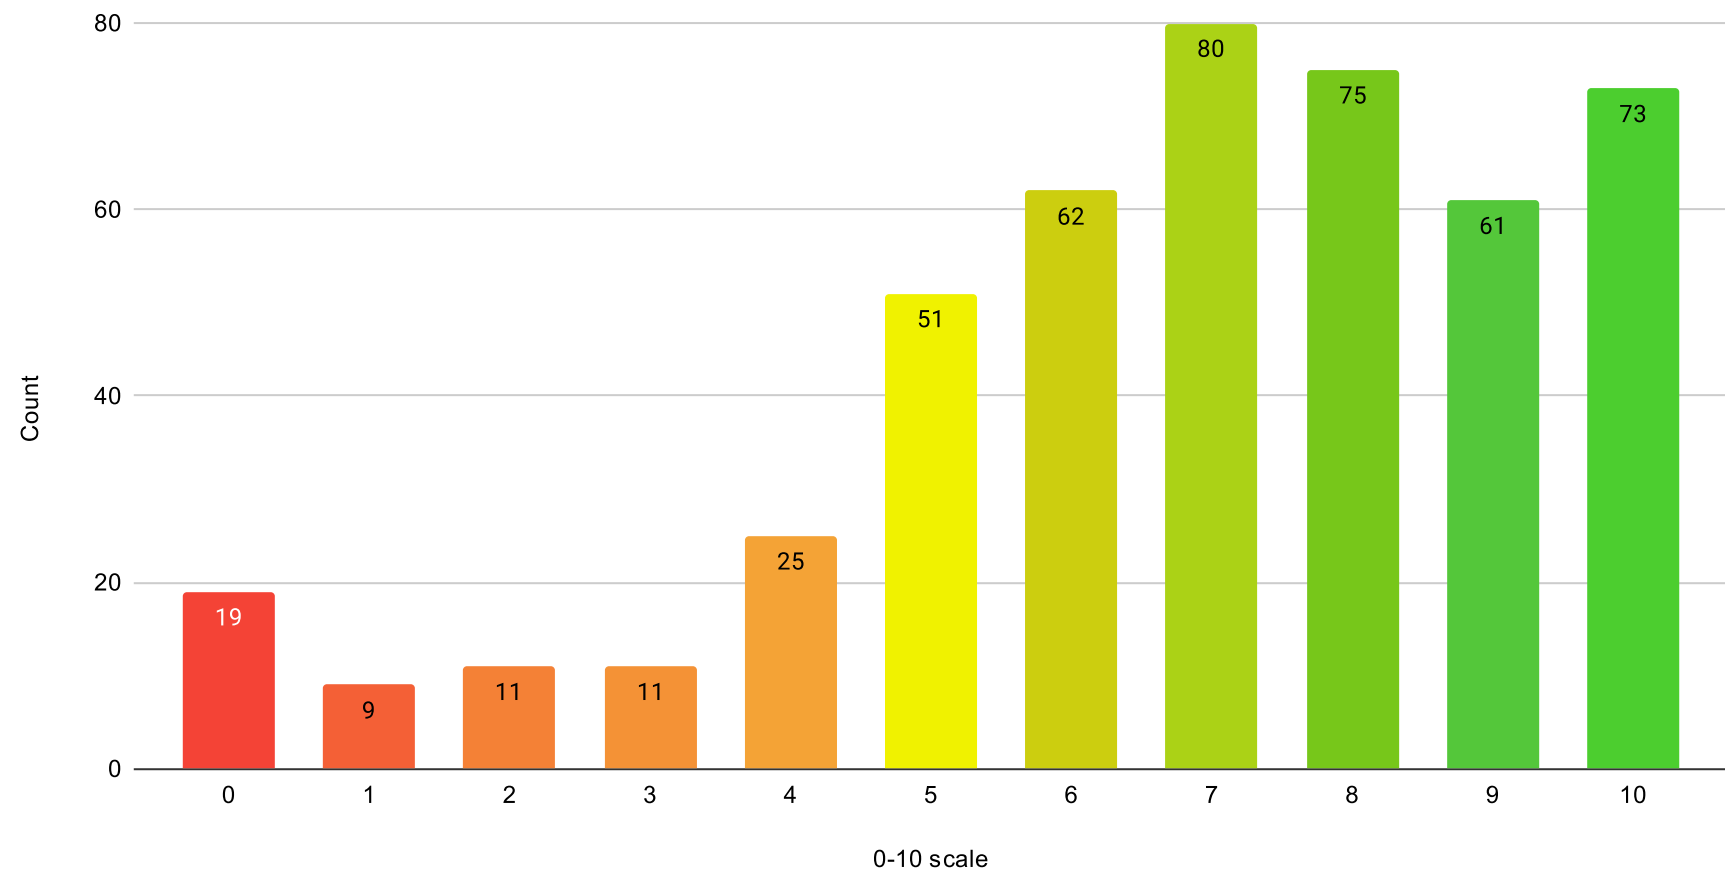

If you wish to carry out another survey, maybe later in the year, please contact us at support@edukit.org.uk.

Which year group are you in?

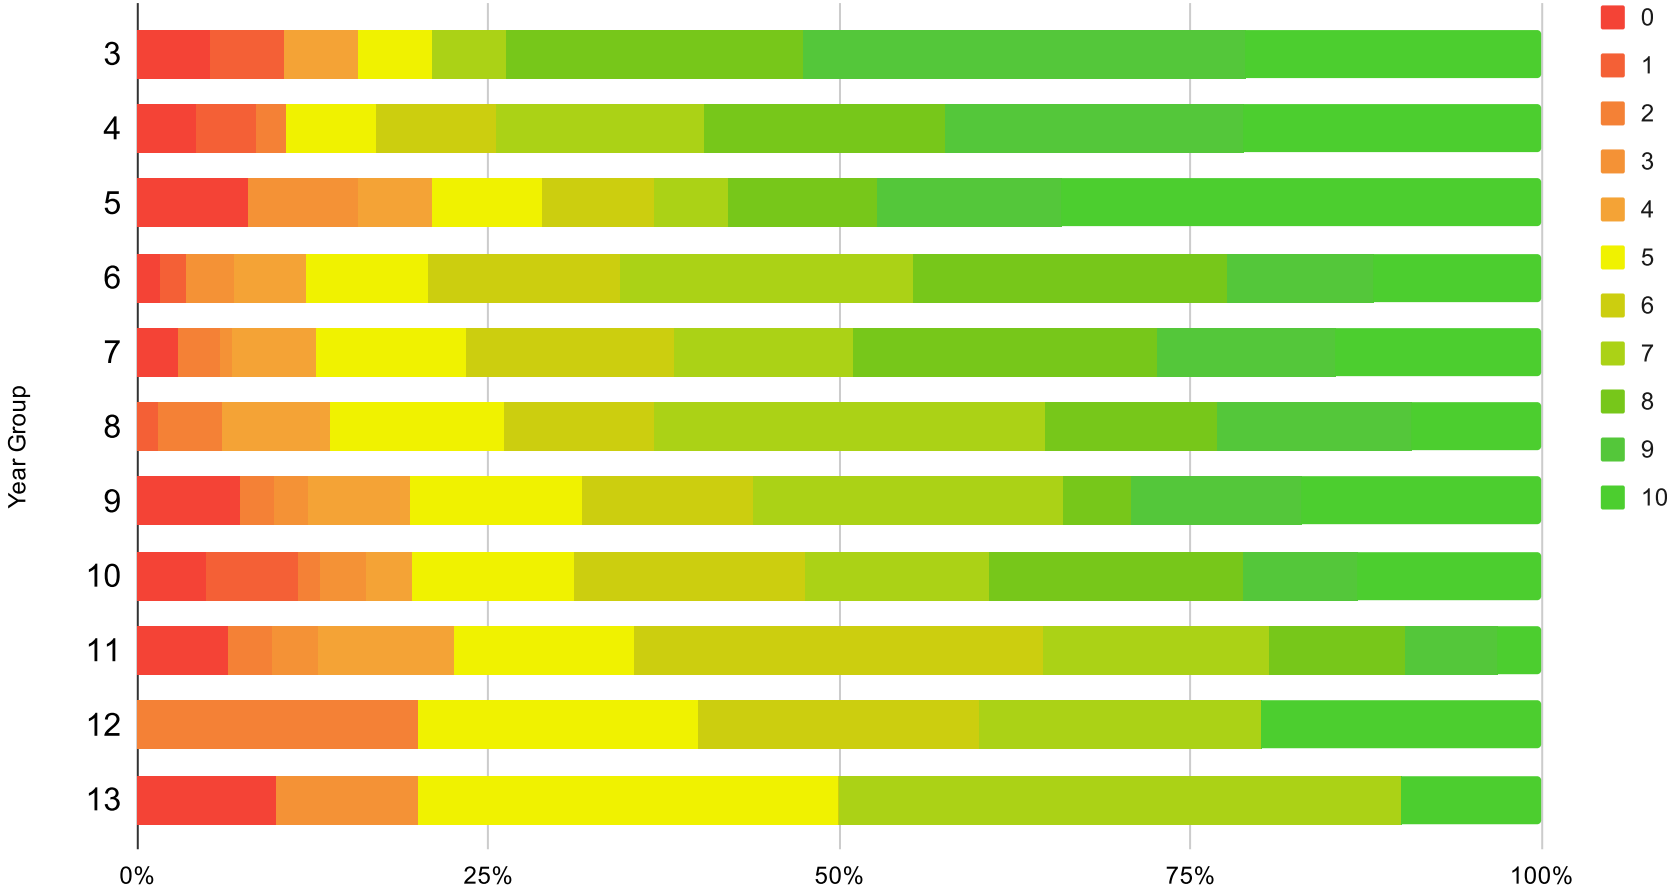

How students feel about their life on a 0-10 scale (all students)

Wellbeing Score

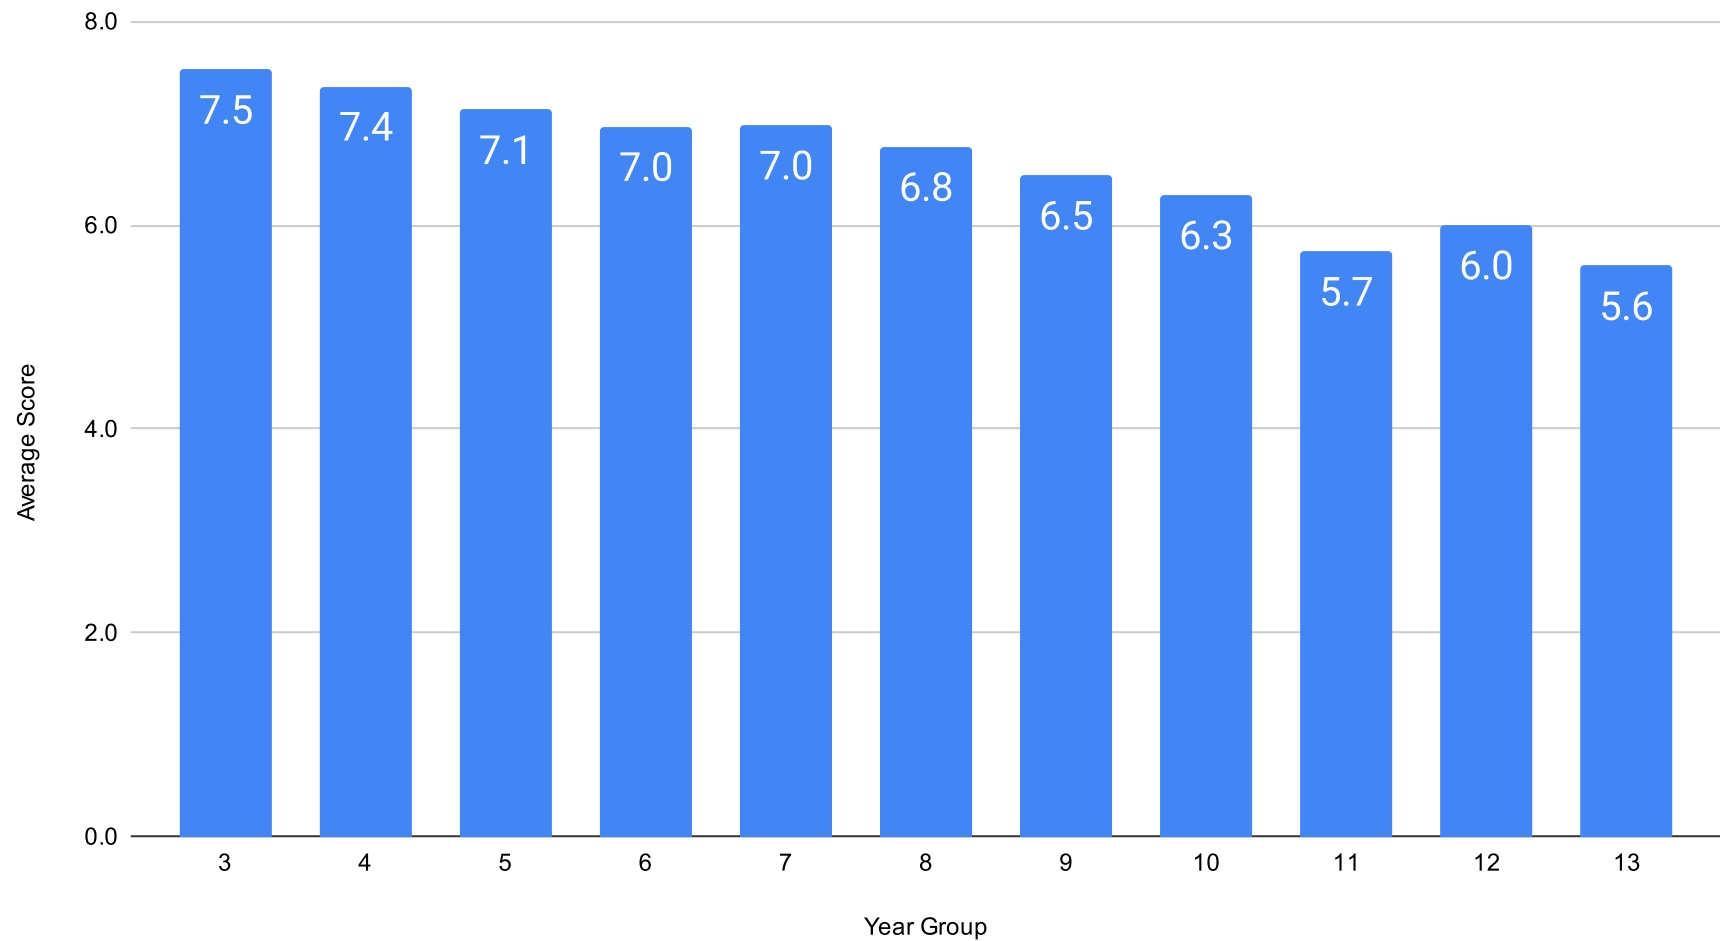

How students feel about their life on a 0-10 scale, by year group

Wellbeing Score

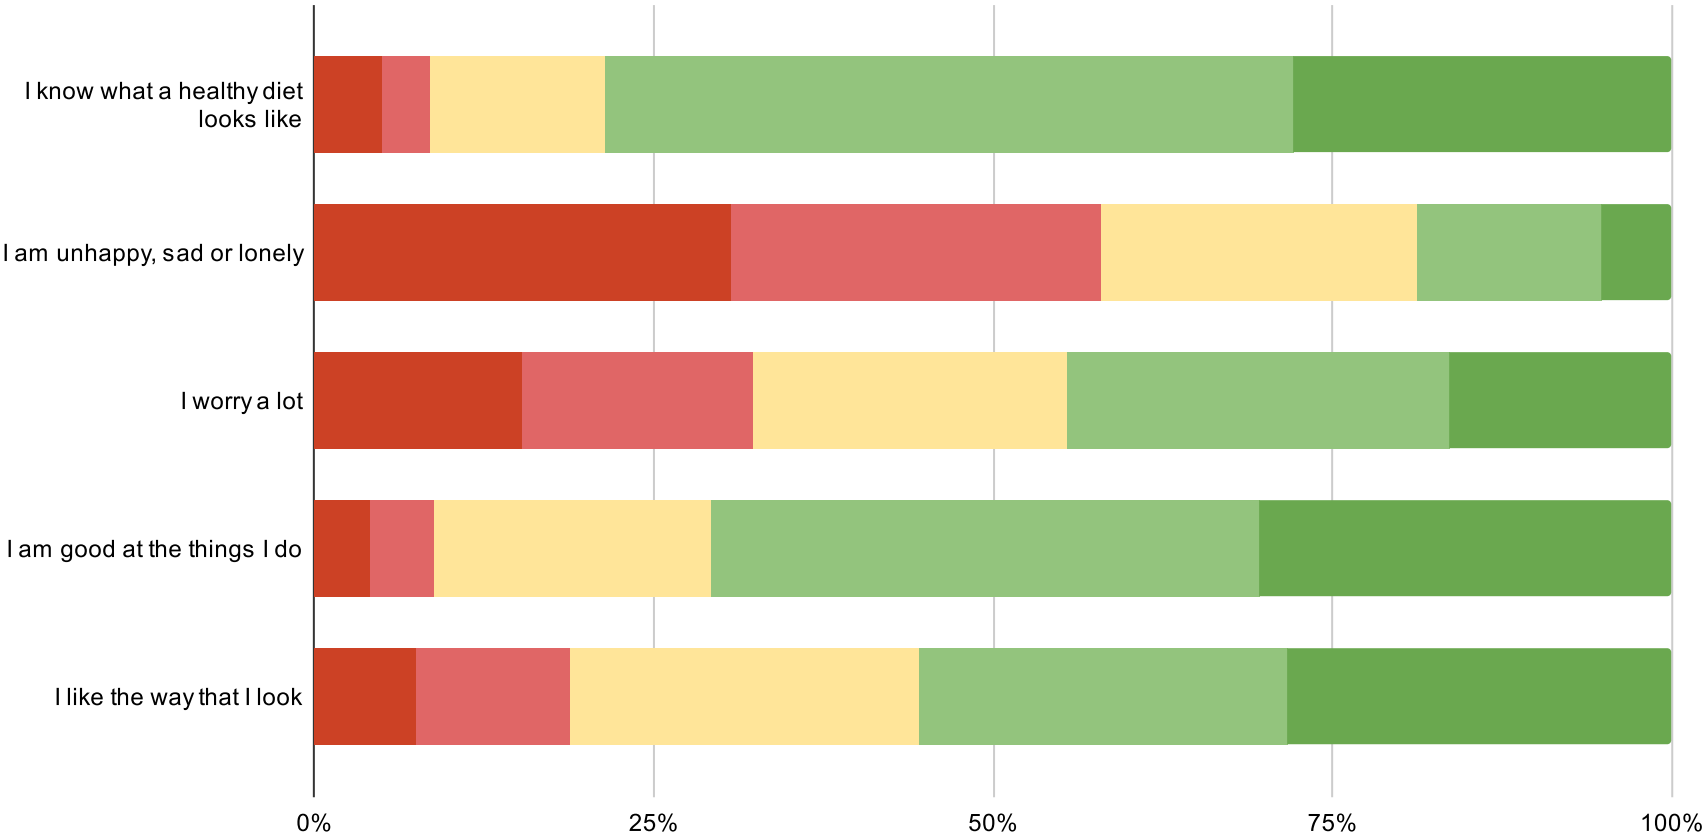

Average wellbeing score by year group
